

Week 01 Minutes

Date	24/09/2014
Time	15:30-16:10
Participants	Paul, Cynthia, Anthony, Kaiyu, Huayan
Recorder	Cynthia

What did we talk about?

- We get to know about the user requirements (which will be specified in the user requirement document).
- If we want to get high marks, that mean we'd better ask as less help from the supervisor as possible, however, we should never feel scared to ask questions.
- We'll have our weekly formal meeting at 3:30pm every Wednesday if possible.
- Send Paul a meeting agenda about the meeting before meeting so that we can make our progress organized.
- Post the meeting record on Tower soon after the meeting.
- We should get the group member in Birmingham involved in our informal meeting every week.

What are we going to do?

- Write the user requirement document
- Each one of us do some research about MOBA and post some articles/papers/open source code on Tower
